# Delivering Effective Response to Cyber Incidents

STORM - Strategic, Tactical & Operational Risk Management - STORM - Strategic, Tactical & Operational Risk Management - STORM

Preparing high level policies and easy-to-use operating procedures as well as providing training and exercises for the response team

## Our planning covers:

- Alignment to best practice including NIST
- Integration with existing procedures with minimal modification
- Clear, unambiguous wording and terms
  - Simple to execute
  - Step-by-step approach
  - Playbook style checklists
  - Senior Management and Operational team plans

## Our training & simulations cover:

- Practical, scenario-based application of your incident response plans
- Appreciation of multi-role team working and coordination
- Testing of Strategic, Tactical and Operational response functions
- Risk-based decision making with central and regional adaptation
- Desktop or fully Immersive exercises
- Appreciation of cyber insurance claims reporting process

Our experts in both cyber risk, cyber incident response and cyber insurance will deliver a tailored incident management process that is based on best-practice and will scale across your organisation without the need for constant update. Our post training service continues to provide assistance with live in-breach support.

*Improve your capability now!*
