Delivering Effective Response to Cyber Incidents

STORM - Strategic, Tactical & Operational Risk Management - STORM - Strategic, Tactical & Operational Risk Management - STORM

Coordinating both first responders and external specialists into a coherent team to minimise the impact of a cyber breach

Our Breach Coordination includes:

- Use of best practice methodologies
- Integration with existing procedures with design and testing of response workflows
- Provision and management of secure cyber incident response platform
 - Easy-to-use for responders
 - Maintains evidential record
 - Playbook style checklists
 - Tasking as needed
 - Secure messaging
- 24-Hour Cyber Response Helpline
- Access to wide range of experts (as required on a per incident basis):
 - Legal & Compliance
 - Digital Forensics & Pen Testing
 - PR and Corporate Comms
 - Call Centre & Credit Monitoring
- Experienced communications with IT providers & other 3rd party vendors
- Executive briefing & impact analysis
- Situational awareness and post incident reporting

Our experts in both cyber breach response and impact analysis will bring calm and rigor to your management of information security incidents. We have over 50 years of combined experience in digital investigations and crisis management. Our network of experts will enable you to maximise the quality of response and minimise losses to your business when the inevitable occurs.

“

We aim to assist our clients to manage breaches and other cyber incidents in the most effective way possible with strong coordination and a practiced team of legal, technical and PR expertise.

”
